

2009 Comprehensive Water Package

The Water Package :

4 Key Components

- Delta Governance and Sustainability
- Statewide Water Conservation
- Groundwater Monitoring
- Funding for Water Supply Reliability

Delta Governance and Sustainability

- New framework for government agencies to work together under one cohesive plan
- Improve health of the Delta and water supply reliability

Statewide Water Conservation

- Statewide goal of 20% per capita water reduction in water use by the year 2020

SB 7 Statewide Water Conservation

Groundwater Monitoring

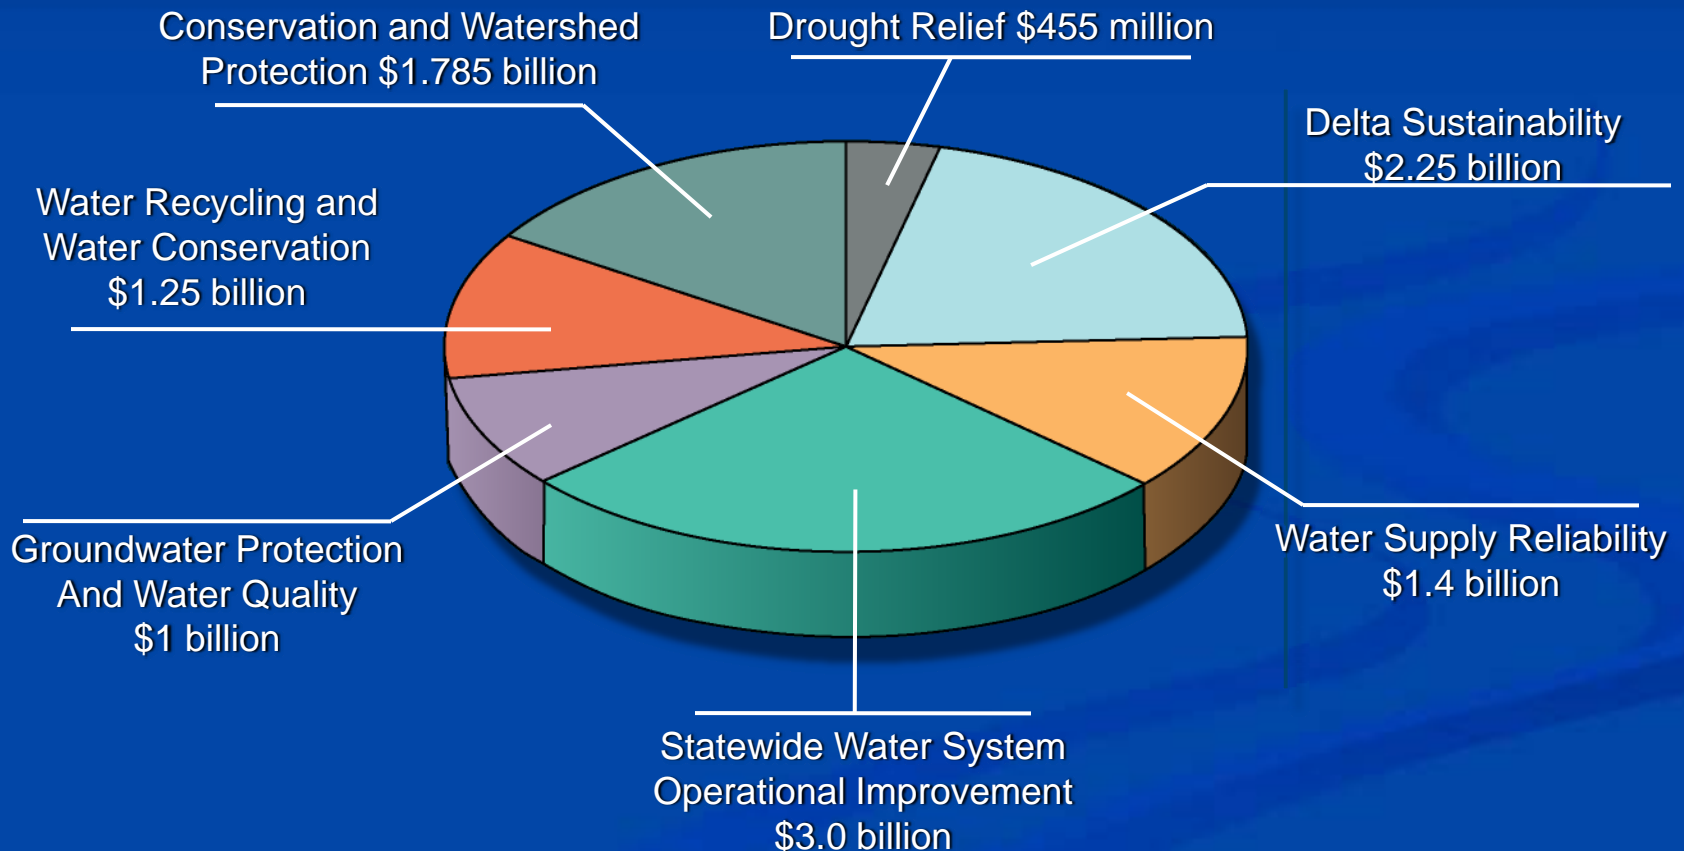

- Establishes, for the first time in California's history, groundwater monitoring requirements for local agencies

SB 6 Groundwater Monitoring

Funding for Water Supply Reliability

Safe, Clean, and Reliable Drinking Water Supply Act of 2012

Water Commission Role

Water Storage

- Develop and adopt, by regulation, methods for quantifying and managing public benefits for Water Storage Projects by December 15, 2012
- Make determination that a project is feasible, consistent with applicable laws and regulations, and will advance long-term Delta solution
